

As a local 501-C-3 Professional Association, the recent proposal to eliminate the prior "established business relationship" with our 1,400 member dentists is grossly unfair. We rely solely on Broadcast FAX to communicate with our members. This saves us and countless other associations millions of dollars each year in printing costs, staff time, postage etc. Our members rely upon our faxes for communications and they know the cost saving and lower dues that Broadcast FAX provides. I go on record to join the others in halting the FCCs new onerous regulations.
